GDrive Quota Bypass Method

To bypass the quota, first you need to have a gdrive, it's free with gmail.

Go into the gdrive folder that is quota'd and find the game you are after. Right click it and select add to my drive.

Now from here navigate to your gdrive and right click the game you just added. Select make a copy, which will appear in your gdrive.

You can download the copy now as the quota changes when you copy it.
